NOTICE AND INSPECTION REPORT

FLORENCE COUNTY Sanitary Ordinance Section 7.0 and Comm 83 and 84, Wisconsin Administrative Code and Wisconsin statutes 145.20 (2) (i) requires that owners of Private Onsite Waste Treatment Systems (POWTS) are required to participate in a Private Sewage System Maintenance and Management Program. All POWTS, shall have the septic tank pumped by a licensed pumper within three years of the date of installation and at least once every three years thereafter, or when the sludge level reaches one-third of the liquid capacity of the tank. This program requires that your septic tank (and filter if applicable) be inspected and pumped if necessary and the drain field is functioning properly. This requirement is designed to protect and improve public health safety and groundwater quality. Proper Maintenance will prolong the life of the private sewage disposal system.

JOHN B MCCAULEY
1826 W SCHOOL FRONT HOUSE
CHICAGO IL 60657

You have three (3) months after this notification to have the system inspected and submit the attached report which needs to be completed by an approved inspector. If you have had this system pumped within the last three (3) years, have the report completed by the approved inspector. You will be due for your next notification for inspection and pumping if needed three (3) years from that date.

Thank You.
Rich Wolosyn, Administrator
Trish Kelly, Assistant

INSPECTION REPORT

Permit #: 94-89 Issued: 08/29/1994 Tax Parcel #: 010-00575-0000

Tank inspected by: _____ on _____
(Inspector) (Date)
